ABOUT OUR COMPANY

Over five years ago, an Indian elevator company was born with a dream that India could take on the best in the world. Since then, it's been a steady climb to greater and greater heights. Today, in vertical transportation, our market-share is an industry-leading 20%. We are an ISO 9001 company with several prestigious quality awards. Our products, born from in-house R&D, offer the perfect balance between state-of-the-art technology and value for money.

Epic Elevators is one of the leading and accomplished companies in the production and manufacturing of elevators in the market today. But what sets the company apart from others is the quality and high precision products and the prompt after-service to customers without any delay.

ADVANCED TECHNOLOGY

FIVE NOVEL TECHNOLOGIES ASCEND EPIC INTO THE WORLD'S FIRST-CLASS STANDARDS.

CONTROL SYSTEM

Highly integrated intellectual control system

Closed loop control, real-time monitoring operation of the elevator, data measured according to predetermined criteria, in an instance you can fix errors, centralized scheduling for elevator group and control flow to a vertical building.

BEST RUNNING CURVE

Real-time operative curve to calculate the best run

In the acceleration, deceleration, braking more smoothly, reducing the run time between layers to improve leveling accuracy, leading to more superior ride comfort.

EFFICIENT MANAGEMENT SYSTEM

Most efficient vertical transportation system

Able to change the dynamic traffic load and transport systems to make accurate judgements and issued the most efficient dispatching instructions to reduce the number of stops, reduce passenger waiting time and improve experience ladder.

BEST RUNNING CURVE

High speed bus communication system

Fast response call for passengers, faster and smooth operations, free from load changes.

ENERGY

Energy regenerative drive

Epicelevator can lift the energy regeneration system gravitational potential energy into electricity and transferred back to the building's power grid for re-use to reduce energy consumption.

WORLD CLASS PRODUCTS AT YOUR SERVICE

SMALL MACHINE ROOM ELEVATOR

On the basis of inheriting the modern highly mature technology, small machine room elevator increases the reliability and flexibility of the lift system and fulfills the genuine environmental protection and energy-saving advantages.

Compared with the usual machine room, small machine room elevator adopts the reasonable civil engineering layout, the machine room covers the equal area as that of the well. It saves the machine room space, reduces the outline influence from the machine room towards the construction. It can adapt to the buildings which have special requirements towards the outline appearance. It not only cuts down the construction cost, but also is helpful to excite the inspiration of the construction designers to create the artistic buildings one after another.

MRL GEARLESS ELEVATOR

EPIC's MRL elevator are acquainted with the environmental protection ideas. It saves the energy, decreases the consumption. It brings about the less construction area and raises the design freedom. It thoroughly shows the green humane characteristics. Compared with the equal load rating geared lifts, it saves 25% of the electric energy and 10% of the construction area. EPIC ELEVATORS breaks through the premise of the machine room set forth by the traditional lifts. It supplies the infinite invention possibilities in the limited space of the modern architectures.

EPIC DESIGN CENTER

Traffic flow analysis and planning, decoration design and other services provided by EPIC Elevators will help you design the best equipment ratio and layout simulation for different types of buildings, and help you get the best solutions.

It provides many professional car designs for you to choose from, also provides program tailored for you according to the style of your building.

CONTROL PANEL SYSTEM

MRL BELT ELEVATOR

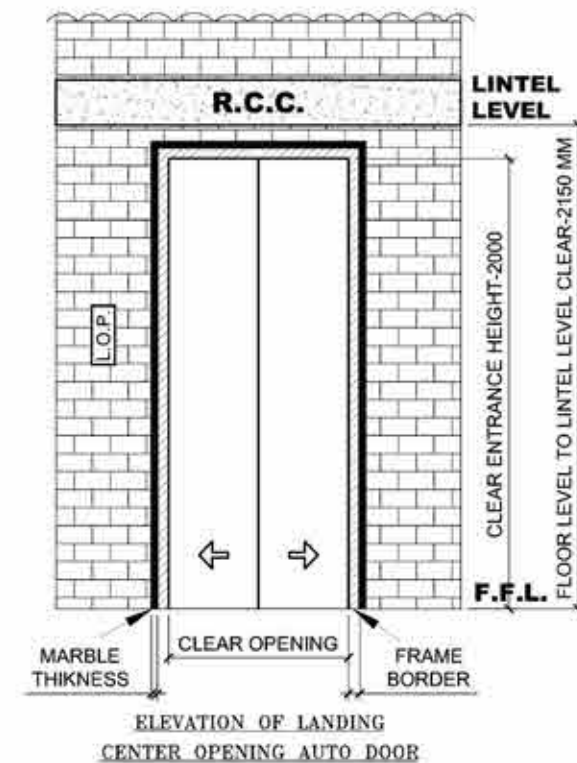

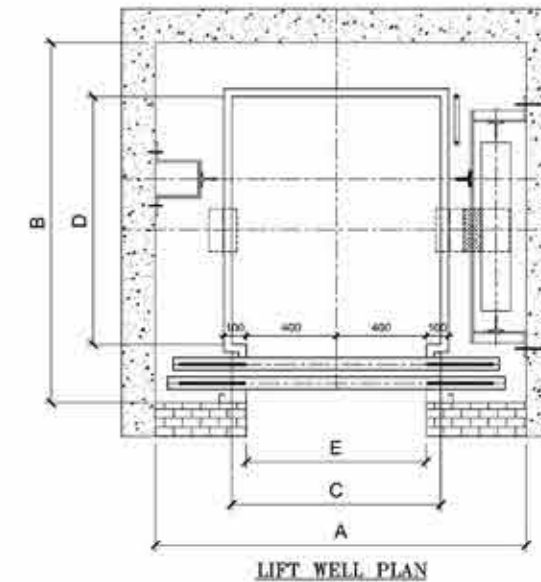

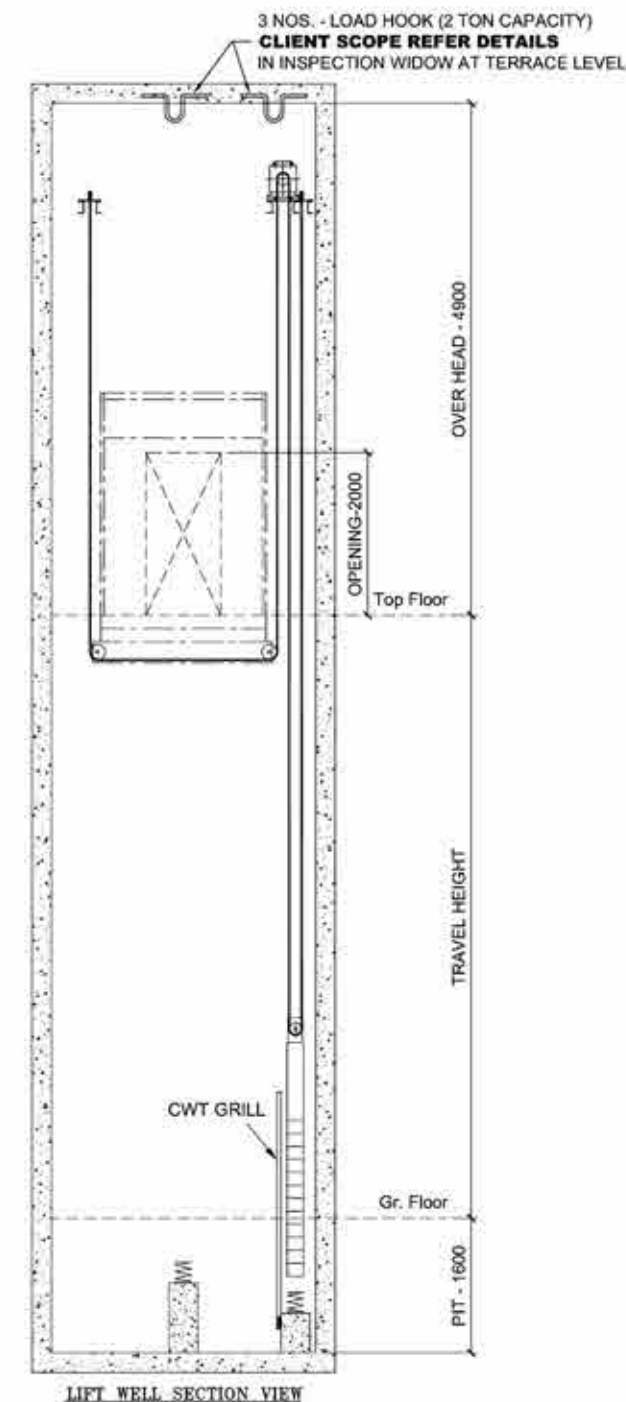

**LESS SPACE
LESS ENERGY
MORE FLEXIBILITY**

Brings you a revolutionary concept in the field of elevators to give you absolute freedom in designing - MRL - Machine Room Less Elevators! Our exclusive Machine room less elevators brings aesthetic enhancements for you structure.

It reduces the building expense and saves the construction cost too

Machine Roomless Elevator gathers together the excellent lift system and the research fruits of the architectural adaptability. It has been independently researched into and

developed company. It adopts the mature control technology and the advanced design concepts that lead the trend with a combination of the superior performance permanent magnet synchronous and gearless drive system. It completely merges with the constructions to fully hoist the building aesthetics and values. It has very high cost performance advantages Machine Roomless Elevator is just like the eyes of the architecture. It thoroughly shows the construction characteristics.

PASSENGER ELEVATOR

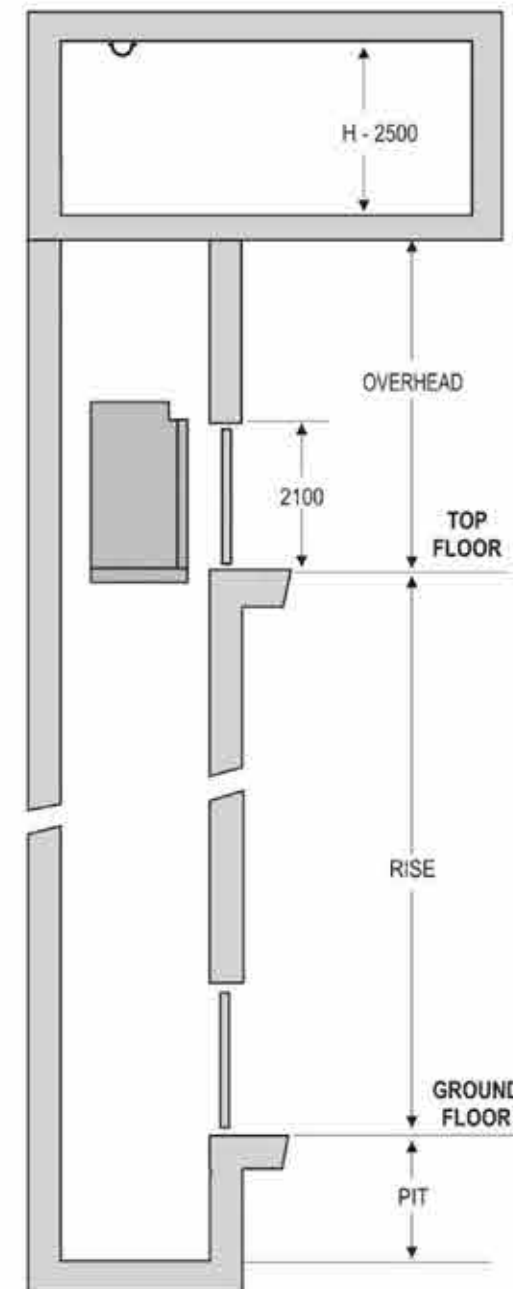

EXCELLENT ECO-EFFICIENCY SUPERB RIDE COMFORT VERSATILE DESIGN

We offer all types of passenger elevators of different capacity and speed. Our latest passenger elevators comprise of VVVF close loop microprocessor based controller with sophisticated and attractive cabin and latest electronic components for minimum and easy maintenance as well as low power consumption as per today's need. We offer varied range of attractive and durable cabins made with different types of material such as M.S – powder coated, S.S – different types of designs, wooden and aluminum

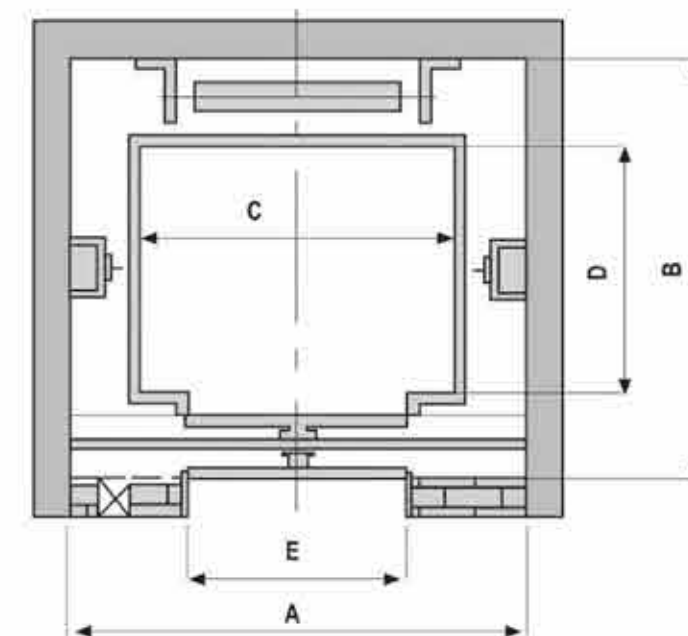

coated panels and many more. We provide latest version of auto door for cabin and landing doors that gives better comfortability and safety.

A high-quality elevator for low to mid-rise buildings that have demanding people flow and ride comfort requirements. It features a broad range of interior options, superb ride comfort and excellent eco-efficiency.

CAPSULE ELEVATOR

RAIN SCREEN SYSTEMS
EXTERIOR SIDINGS
CUSTOM POST AND BEAM WORK

Epic Capsule Elevators act as Architectural highlights on prestigious buildings. They can be called the ornaments of a building as they enhance its beauty and bring life into it. Its design, features and infinite options add its optimum travel comfort. It has aesthetically attractive interiors with large glass viewing panel. Capsule lifts demand

specialized knowledge and had the experience of EPIC at its best. EPIC capsule lifts are inspired with creative flair to suit your particular idea.

HYDRAULIC ELEVATOR

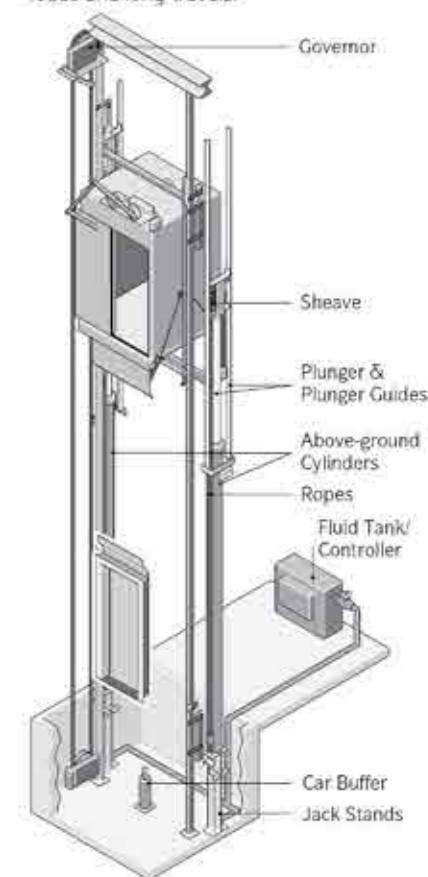

**LOW MAINTENANCE
A LONGER OPERATING LIFETIME
SIMPLE & FAST INSTALLATION**

Looking for a low-maintenance elevator? Hydraulic lifts provide the advantages of being relatively inexpensive, safe and easy to maintain. They're very convenient and cost-effective solution for low-rise buildings with low traffic.

Hydraulic elevators have been rated the safest option for home elevators. They boast superb user friendliness and easy access machine room located at the basement. Once they are put in place, hydraulic elevators provide the smoothest rides possible.

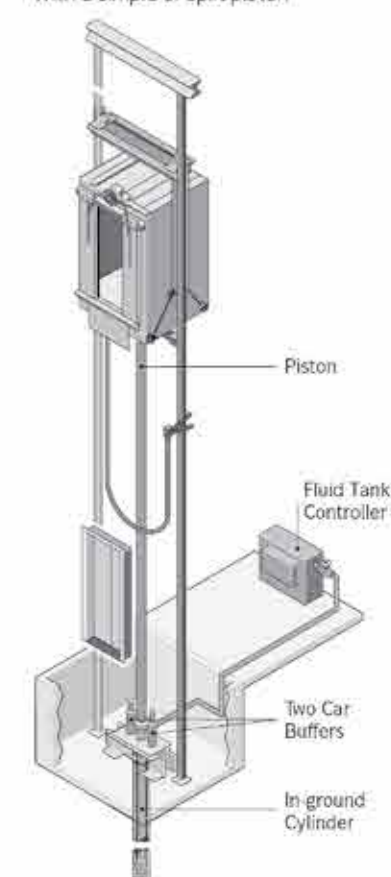

Rope Type

Side indirect acting suspension with wire ropes with one piston for regular loads and long travels.

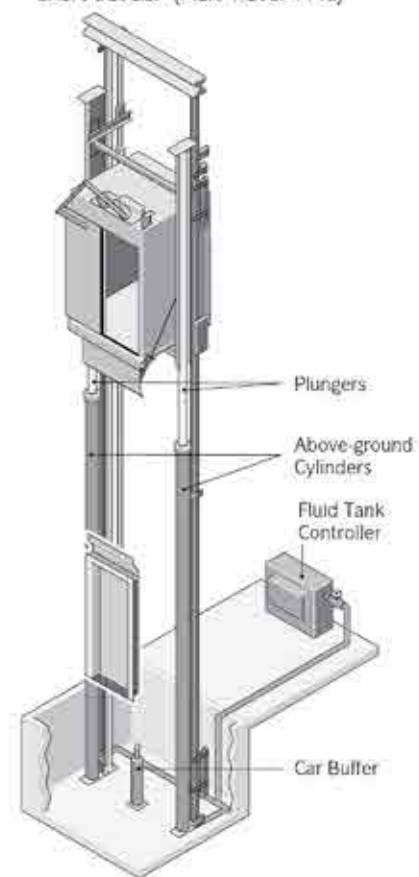

Hole Type

Direct suspension. The simplest solution for any load with a simple or split piston.

Hole Less Type

Side direct suspension with two simple piston for large loads and short travels. (Max. Travel 4 Mt.)

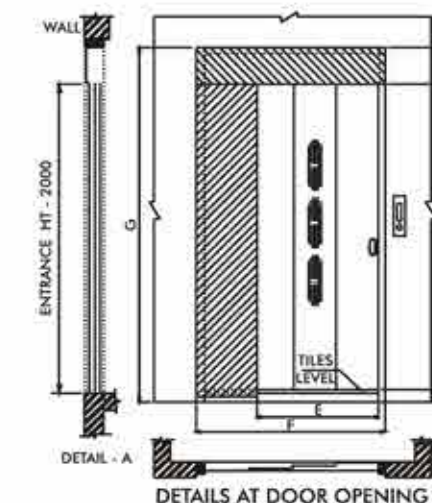

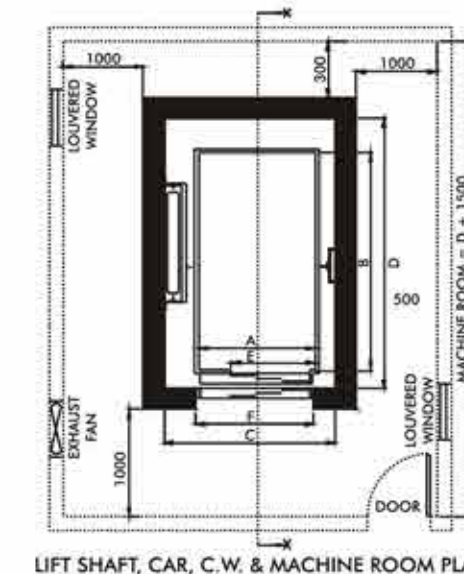

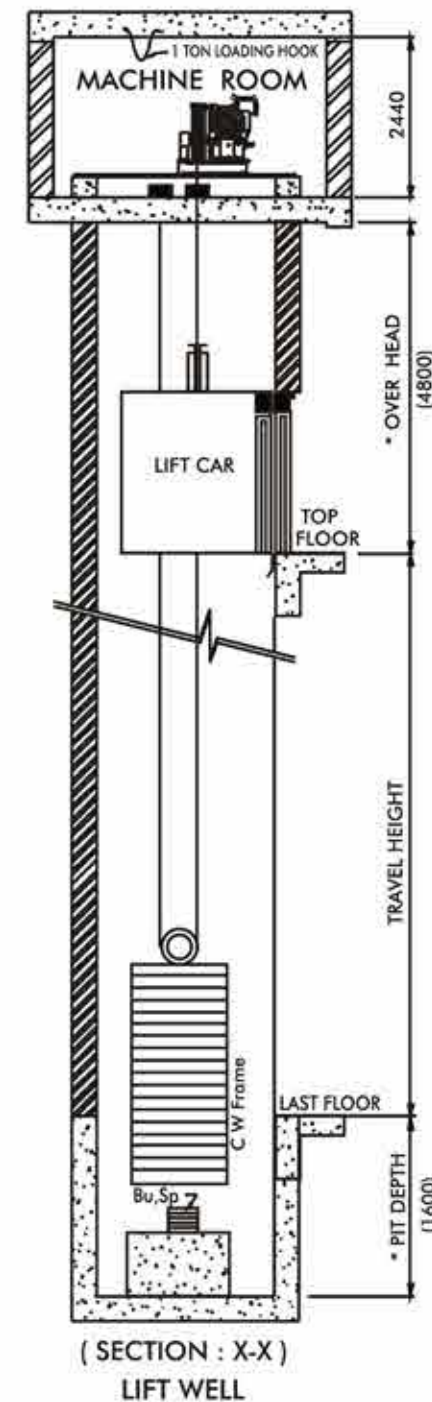

HOSPITAL ELEVATOR

SPECIALIZED CAR DESIGN SMOOTH ENTRY & EXIT QUIET OPERATION

These automatic lifts are built specially for usage by hospitals. Stretchers can be accommodated. Cabin if required - can be washed or fumigated there is no jerk in starting or stopping. The range from 13 persons to 40 persons with the minimum size being 3' x 7'. The cabin walls can be of M. S. Painted, M. S. Powder coated or hairline brush finished stainless steel collapsible

channel gates or swing doors with glass vision windows can be provided. Swing door be varied from floor to floor to suit the decor. Automatic doors can also be provided.

CAR ELEVATOR

SPECIAL DISPLAY SYSTEM SMOOTH AND ENERGY-SAVING SAFETY GUIDE DEVICE

The company designs and develop a wide range of car parking lifts that are fabricated using high-grade raw material, sourced from reliable vendors across the worldwide, and tested on various quality parameters. These can be customized as per the specifications of the clients and delivered within a stipulated time frame.

Note :-

- Overhead requirement, Min. 4200mm in machine room less lift.
- Vertical sliding doors can be provided where floor height is 4000mm or more and overhead is 4200mm minimum.
- Collapsible, Swing double doors can be provided at landing as per requirement.
- Customised lift cars as per requirement can be provided.
- For further details, Please contact our sales representative.

Our latest offering **ESCALATORS**

WHAT WE OFFER

Eco-efficiency, flexible design and a high focus on safety are the building blocks of our broad range of escalator and autowalk solutions.

WORLD CLASS SERVICE

We offer services and support for every step of your project - from building design to construction.

EPIC ELEVATORS PROVIDES A COMPLETE ELEVATOR PACKAGE SOLUTION

SOLUTIONS FOR EXISTING BUILDINGS

We pride ourselves on our deep understanding of both equipment and customer Needs – ensuring your existing equipment is kept running smoothly throughout its lifetime.

ELEVATOR MODERNIZATION

Boost your elevator's reliability, eco-efficiency, comfort, and appearance with our modernization solutions.

ENHANCEMENT SOLUTIONS

Smart, flexible solutions for access and destination control, as well as communication and equipment monitoring.

COST-EFFECTIVE SOLUTIONS

With our modernization solutions for all needs and budgets, we promote safety, aesthetics, eco-efficiency, performance and accessibility standards.

MAINTENANCE

We maintain all makes and models of elevators and escalators.

AFTER - SALES SERVICE

WHY CHOOSE EPIC MAINTENANCE?

24x7 hassle free aftersales service available with the team of experts, technicians and professionals to cater to the customer's demands.

RELIABLE EQUIPMENT

The elevators and escalators we maintain are available in average over 99% of the time.

FAST SERVICE

Our service teams are on call day and night, and they solve most problems within one day.

WE KEEP YOU UP-TO-DATE

We keep you informed on equipment status, maintenance schedules, and on-site work.
